

## Corma HSC Series 2

### Adjustable Perforator

### Some advantages of the Corma HSC Series 2 Adjustable Perforator:

- Designed for online perforating of single wall and double wall corrugated pipe with or without in-line coupling
- Suitable for perforating corrugated pipes in PE, PP and PVC
- Synchronized to work with Corma corrugators including speed control to manage both single wall and double wall pipes
- Two models cover pipe diameters from 50mm I.D. to 400mm O.D.
- Easy adjustments for different pipe sizes
- Cutting spindles open automatically to allow clear passage of inline couplings
- Produces perforations with rounded knife cuts
- Material savings of up to 2% as perforations are recycled
- Manufactured under strict ISO 9001-2008 procedures to meet customer's requirements and bear the CE stamp of conformity to the European technical and safety standard.
